We Offer Direct Placement Programs

Direct hire is a recruitment model where candidates are **hired directly** by a **U.S. employer** as **full-time, permanent employees**—not through a staffing agency. This means candidates are placed into long-term roles with full **employee benefits**, **job stability**, and a clear path to career growth. At Infinity Care Partners, our direct hire process includes **full support** through **recruitment, immigration, relocation,** and onboarding into your new role in the U.S.
